Sir:

On May 30, 2006 applicant submitted a Petition for Modification of Claim of Priority. That Petition was dismissed for failure to meet the requirements of 37 C.F.R. 78(a)(2)(I) in that reference to the prior filed application was not submitted.

Because the wording of this rule is vague, it was believed that the submission of the reference on a corrected Data Sheet was sufficient to meet this requirement and such a Data Sheet with the correct priority claim was submitted. The dismissal of the Petition indicates that the Data Sheet was insufficient.

Consequently, applicant submits herewith an amendment to the

application incorporating a cross reference to the corrected priority claim.

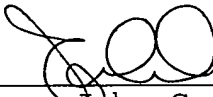

Therefore, reconsideration of the Petition under Rule 78(a)(3) is respectfully requested and, if reconsideration of the original petition is not possible, then consideration of this document as a new petition is respectfully requested.

It is believed that all requirements of the Petition under Rule 78(a)(3) are met as follows:

- a) An amendment to the application to cross reference corrected priority is submitted herewith along with a corrected Data Sheet.
- b) The surcharge of \$1370 set forth in Rule 17(t) has been previously paid and application of that fee herein is respectfully requested. If a new fee must be charged, please charge it to Deposit Account No. 50-1253.
- c) The entire delay between the date when the claim was due and the present was unintentional. In particular, the original claim included a typographical error that was noticed only recently in association with amendment of the application and it was believed that the previously filed petition met all of the requirements of Rule 78.

Respectfully Submitted,
